

Patents on Intrusion Detection in one decade (1994-2004) (*)

Enrique López González, Cristina Mendaña Cuervo

Technical Report #MISYG-2004-06 December, 2004

(*) Este trabajo está soportado por el proyecto de investigación DPI 2001–0105 del MCT.

Patents on Intrusion Detection in 1994:

CA2125445	Intrusion and suspicious user detection device for a computer installation
	and security system incorporating said device
GB2278016	Pyroelectric infared detector
EP0609043	Methods and apparatus for intrusion detection having improved immunity
	to false alarms
JP6258194	Car safety sensor system and its operating method
WO9409529	Cable for use as a distributed antenna
US5371509	Planar microwave transceiver employing shared-ground-plane antenna
JP6203279	Intrusion detector
WO9407222	Intrusion detection system
DE4327664	Burglary-detection arrangement (intrusion-detection arrangement)
EP0583195	Alarm signal elaboration device
EP0581569	Intrusion detection system utilizing adaptive sensor technology
CA2099971	Detection Signal Evaluation at Varying Signal Levels
CA2127804	Antitheft System and Antitheft Apparatus
JP6323905	Passive infrared detection device
US5347094	Elevator shaftway intrusion device
JP6309687	Optical head and optical information recording/ reproducing device using
	this optical head
JP6307928	Infrared detector having limited detection area
JP6301868	Intruder monitoring method
JP6294667	Rotary encoder
US5322995	Charge integration preamplifier for use in radiation detection circuitry
JP6018209	Piston rod position detector for hydraulic cylinder
WO9420937	Intrusion detection apparatus
CA2157894	Intrusion detection apparatus
WO9400732	Distributed fiber optic sensing system
JP6249871	Piezoelectric vibration sensor
US5352895	Pyroelectric device
JP6198844	Hydraulic transfer device
JP6201837	Investigating apparatus of magma activity direction
US5281809	Method of operating light curtain with deactivated zone control
JP6184880	Weft detection feeler for water-jet loom
JP6186189	Oxygen sensor
JP6180365	Gate monitor
JP6170286	Chemical spraying machine
JP6160253	Gas sampling method and unit for mass spectrometric gas leak detector
US5376922	Wireless bistatic link intrusion detection system
JP6111146	Invasion monitoring device
JP6076175	Active type radiation beam intrusion detector
JP6076174	Active type radiation beam intrusion detector
JP6076173	Active type radiation beam intrusion detector
01 00 10113	1 rearre type radiation beam matasion detector

JP6076171	Alarm decision system for burglar system on burglar monitoring board
US5291196	Collision-avoidance method for cooperating carriers and onboard optical
	assembly designed for its implementation
FR2694650	Parametric analyser for intruder detector using pressure sensor - includes
	microprocessor for memorising and comparing signals in order to set
	detection thresholds and sense abnormal signals
JP6052450	Heat ray type intrusion detector
JP6052449	Intruding body detecting device
JP6044603	Pinhole plate for optical head device and main beam detector
US5376919	Vehicle intrusion detector
USRE34788E	Pressure change intrusion detector
US5278901	Pattern-oriented intrusion-detection system and method
JP6012695	Method for processing optical information
JP6044763	Information processor having dustproof mechanism
US5311024	Lens arrangement for intrusion detection device
JP6046316	Shaking controller for video camera
IL100173	Intrusion detection apparatus
US5283400	Elevator shaftway intrusion device
CH683305	Controlled current supply ensuring readiness of monitoring installation -
	uses economy voltage detector to monitor state of change of storage
	element and switch AC=DC converter only when necessary
US5309144	Proximity sensing security system

Patents on Intrusion Detection in 1995:

WO9530562	Security device
EP0683400	Method and device for movement detection using ultrasonics and the
LI 0005400	Doppler-effect, and intrusion alarm device for a compartment, particularly
	of a vehicle
CA2144105	Method and System for Detecting Intrusion Into and Misuse of a Data
C/12144103	Processing System Processing System
IL112881	Taut wire intrusion detection system
GB2286074	Location independent intrusion detection system
EP0660284	Infrared human detection system
US5475365	Methods and apparatus for intrusion detection having improved immunity to
655175565	false alarms
WO9513944	Programmable multi-access verification vehicle monitoring system
WO9511146	Vehicle security system
US5450062	Detection system with reduced sensitivity to pin diode effect
US5473311	Method and apparatus to distinguish human intruder and animal intruder
US5465080	Infrared intrusion sensor
US5446446	Differential, multiple cell reflex cable intrusion detection system and
	method
WO9502833	Light curtain
DE4420431	Theft prevention system with micro-mechanical accelerometer
JP7336615	Image display erasing device
JP7327340	Motor speed detector
US5468960	Pyroelectric infrared detector
US5461364	Intrusion detection device
JP7296068	Refuging guidance supporting device
US5417586	Fitting detection connector
JP7265202	Rice cooker
JP7274157	Maritime monitor device of vessel or the like
JP7004123	Electronic dial lock with secret intrusion detecting mechanism and detecting
	method of secret intrusion
JP7264108	Transmitter
JP7264132	Submarine communication system
JP7249182	Security system
JP7213111	Culm-position detection apparatus of reaping harvester
AU664132	Methods and apparatus for intrusion detection having improved immunity to
	false alarm
JP7178549	Abnormal voltage protective circuit for arc welding equipment
JP7183971	Automated security system
JP7172262	Airbag device for vehicle
JP7167952	Proximity fuse
JP7164075	Slug float detection device
JP7160956	Intrusion supervisory equipment
US5473336	Cable for use as a distributed antenna

JP7131052	Semiconductor radiation detecting element, gamma-ray neutron beam
	detector and dosimeter
JP7117299	Handling equipment of medium
JP7115887	Termite damage detection sensor
US5463595	Portable security system for outdoor sites
JP7098792	Monitoring TV telephone set
DE4333008	Digital correlation logic
JP7084554	Liquid crystal display device
FR2710172	Device for infrared detection of the crossing of a boundary which is
	physically represented by two parallel planes
JP7067514	Microwave rat-controlling apparatus
JP7074762	Bus line data controller
JP7065272	Ultraviolet sensor
JP7057181	Safety device for vehicle
FR2709010	Installation for intrusion detection, of the type using radiating cables buried
	in the ground
FR2708774	Safety device with bi-directional radio link
JP7049382	Moving robot
US5448668	Method of detecting changes to a collection of digital signals
JP7021474	Passive type heat ray detecting device
JP7140818	Image forming device
JP7000918	Controller for oscillating sorter
US5440290	Proximity detection device for protection of personnel against exposure to
	hazardous radio frequency radiation
US5440498	Method for evaluating security of protected facilities
US5459569	Nonintrusive modular particle detecting device
US5420567	Combination fire/intrusion alarm detectors using active infared elements
US5396217	Phase shift analysis for vehicle intrusion detection
US5444431	Intrusion monitoring device
US5434557	Intrusion detecting apparatus
US5414409	Alarm system for detecting an audio signal when glass breakage occurs
US5444432	Detection signal evaluation at varying signal levels
GB2282449	Audio intrusion detection system
US5392027	Full bridge strain gage deflection sensor

Patents on Intrusion Detection in 1996:

Ca2179801 Security sensor arrangement Wo9627862 Noise sensing method and acoustic intrusion detection device Wo9617262 Multiple modal optical fiber intrusion-alarmed communication and sensor systems Jp8316885 Echo canceller Us5506574 Multi-functional intrusion warning system for branch circuits of a home and the like De19516398 Force detection sensor for intrusion alarm system
Wo9617262 Multiple modal optical fiber intrusion-alarmed communication and sensor systems Jp8316885 Echo canceller Us5506574 Multi-functional intrusion warning system for branch circuits of a home and the like
systems Jp8316885 Echo canceller Us5506574 Multi-functional intrusion warning system for branch circuits of a home and the like
Jp8316885 Echo canceller Us5506574 Multi-functional intrusion warning system for branch circuits of a home and the like
Us5506574 Multi-functional intrusion warning system for branch circuits of a home and the like
and the like
De19516398 Force detection sensor for intrusion alarm system
·
Jp8297784 Block net
Us5570079 Home security system for detecting an intrusion into a monitored area by
an infrared detector
Wo9606865 Infrared intrusion detector with obscuring detecting apparatus
Jp8285464 Method and device for detecting skull in refractory wall of molten metal
container
Us5576972 Intelligent area monitoring system
Jp8259166 Hand guard boot safety device of escalator
Jp8263755 Object detecting system
Jp8235458 Mobile object detector provided with illuminating means
Be1009125 Selective intrusion detection process and device
Jp8219936 Water intrusion sensitive optical fiber and cable employing it
Jp8207710 Burglarproof device for vehicle
Jp8196183 Termite detecting apparatus
Jp8182456 Rat detector
Jp8184079 Muddy-water intrusion preventive device
Us5486810 Infrared detector for detecting motion and fire and an alarm system
including the same
Jp8159755 Method for detecting phase difference between image pair
Us5489892 Infrared human detector not barred by an intervening obstruction
Jp8161662 Guard terminal equipment
Jp8153618 Current lead for superconducting device
Jp8145285 Safety device of optical type
Jp8138093 Automatic ticket checking and collecting machine
Jp8091756 Safety protecting fence
Us5578988 Intrusion detection system having self-adjusting threshold
Jp8083383 Device and method for monitoring intrusion
Gb2293038 Security alarm system
Jp8075943 Heat shrinkage type detection module for water intrusion for optical fiber
cable
Jp8055426 Magnetic disk device and its address mark detection
Jp8032510 Start-up method for mobile communication equipment, mobile
communication equipment and stationary communication equipment
Jp8030884 Monitoring system
Us5581236 Methods and apparatus for intrusion detection having improved immunity

	to false alarms
Jp8016964	Alarming device
Jp8016940	Intrusion alarm device
Us5512874	Security device
Us5499012	Intrusion detector test circuit which automatically disables a detected-event indicator
Us5510766	Intrusion detection system
Us5557742	Method and system for detecting intrusion into and misuse of a data processing system
Us5491467	Location independent intrusion detection system
Ep0720938	Motor vehicle security sensor system
Us5557254	Programmable vehicle monitoring and security system having multiple
	access verification devices
Us5578990	Intrusion detection alarming device
Us5543776	Vehicle security system
Us5559496	Remote patrol system
Us5506566	Tamper detectable electronic security package
Gb2290614	Intrusion detection apparatus
Us5510765	Motor vehicle security sensor system
Ru2069013	Device of warning signal system for detection of intrusion into guarded
	room
Ca2051913	Procédé de dispositif de transmission d'information sur fibre optique avec
	détection et/ou localisation d'intrusion

Patents on Intrusion Detection in 1997:

JP9318597	Gas sensor
GB2310720	Intrusion detecting apparatus for a vehicle
CA2198693	Intrusion detecting apparatus for a vehicle
WO9725696	A system and method for detecting an intruder
WO9722955	Open transmission line intrusion detection system using frequency
VV O9122933	spectrum analysis
JP9133631	Multiplex-board type thin-film carbon monoxide sensor
WO9701160	Intrusion sensing systems
JP9314811	Intrusion-detecting device for printing press
JP9119983	Airport-surface surveillance and runway-intrusion alarm system
US5693943	Passive infrared intrusion detector
JP9273125	
	Detection method of car intrusion in construction section
JP9274080	Intrusion detector for vehicle
US5650773	Multi-functional intrusion warning system for branch circuits of a home
ID0257744	and the like
JP9257744	Air/fuel ratio
JP9253584	Controller for shaking separator
JP9257925	Transponder with collision danger detection function
JP9245209	Infrared ray type human body detector
JP9239322	Unpolished rice partition controller for oscillating separator
JP9237390	Burglar prevention device
JP9231474	Wireless calling system
JP9231444	Automatic teller machine
JP9218837	Network security system
JP9212705	Detector and paper sheet discrimination device provided with the same
DE19603676	Unauthorised intrusion into connection, detection device
US5594418	Self-contained dual panel window screen alarm
JP9195307	Interference preventive device of construction machine
US5689243	System and method for tamper detection
JP9185778	Area sensor
JP9185775	Intrusion monitoring device and sensor for the device
DE19548578	Position-selective passive IR intrusion sensor especially for IR alarm units
JP9168340	Nutritive solution culture and device therefor
JP9168359	Termite detection apparatus and termite alarming apparatus
JP9145732	Vehicle speed sensor
JP9135271	Repeater
JP9135368	Digital horizontal synchronizing separator circuit
JP9121742	Termite detector
JP9107407	Conference speech controller
JP9101174	Rotation detector protection structure
US5641963	Infrared location system
JP9093687	Noise sound suppression circuit
JP9091093	Contact type input device and station service equipment

US5685636	Eye safe laser security device
JP9065320	Catv receiver
JP9050585	Intruder monitoring device
US5621385	Intrusion alarm and detection system
JP9073204	Image forming device
JP9009249	Intrusion monitoring method using picture processing
US5682133	Programmable vehicle monitoring and security system having multiple
	access verification devices
US5638046	Security system
EP0788643	Intrusion detection system
IN179054	A sensor for taut wire fence intrusion detection
RU2073908	Method for detection of intrusion into protected room
GB2303753	Optical fiber transmission with intrusion detection and location

Patents on Intrusion Detection in 1998:

Número de	Título
publicación	
RU2103744	Guarding alarm system
RU2123727	Device for detection of intrusion
RU2122238	Intrusion protection device
RU2116672	Method for detection of intrusion into monitored space with guarded
	object and device which implements said method
CA2262895	Intrusion detection system using quiet signal band detection
AU7754098	Intrusion detection system using quiet signal band detection
CA2207119	Intrusion detection system using quiet signal band detection
US5852402	Intrusion detection system
CA2242870	An electronic intrusion detection system for monitored environments
US5850515	Intrusion control in repeater based networks
EP0886841	Open transmission line intrusion detection system using frequency
	spectrum analysis
WO9855972	Intrusion detection system using quiet signal band detection
JP10248467	Termite sensor and termite intrusion detection system
US5818337	Masked passive infrared intrusion detection device and method of
	operation therefore
WO9843220	Walk-test control circuit for security alarm device
US5808547	Intrusion alarm and detection system
AU3850097	An electronic intrusion detection system for monitored environments
WO9835846	Aos fan modulation systems
US5796353	Fault monitoring event detection device
US5793286	Combined infrasonic and infrared intrusion detection system
US5790025	Tamper detection using bulk multiple scattering
WO9828724	An electronic intrusion detection system for monitored environments
GB2319842	Vehicle intruder alarm
EP0845765	Intrusion detection system
FR2756084	Intrusion detector system with several sensors linked to central
	controller
FR2756081	Intrusion presence detector producing detection signals
JP10105840	Automatic intrusion detection system
US5748092	Ceiling tile moisture detection system
US5748083	Computer asset protection apparatus and method
US5742231	Intrusion detection system
DE19646462	Intrusion monitoring system in passage opening especially doorway
WO9813235	Pyroelectric intrusion detection in motor vehicles
DE19639536	Home security system with IR intrusion detector
GB2317486	Intrusion sensing systems
EP0826987	Filter disc for infrared intrusion detector
US5712973	Wireless proximity containment security
US5712937	Optical waveguide including singlemode waveguide channels coupled

	to a multimode fiber
US5705984	Passive intrusion detection system
US5705982	Intrusion detection, register and indication apparatus

Patents on Intrusion Detection in 1999:

Número de	Título
publicación	
SK279812B	Vehicle anti-theft device
RU2143136	Guarding alarm device
RU2133046	Method of detection of intrusion of moving object into control zone
RU2130646	Method for detection of objects in monitored region
HU9902390	An electronic intrusion detection system for monitored environments
US5991881	Network surveillance system
EP0964361	Protection of sensitive information contained in integrated circuit cards
WO9960462	System, method and computer program product for automatic response
	to computer system misuse using active response modules
US5986548	Radio-linked intrusion alarm system
US5986543	Programmable vehicle monitoring and security system having multiple
	access verification devices
WO9957625	Dynamic system defence for information warfare
US5980123	System and method for detecting an intruder
US5973996	Ultrasound intrusion detector
EP0957463	Articulate element for fixing to a wall and/or a ceiling a detecting
	device, in particular an anti-intrusion device
US5942976	Passive infrared intrusion detector and its use
US5942974	Door gasket resistance based intrusion alarm system
AU1926199	Portable detection system with wireless signaling of intrusion condition
JP11185173	Detection line cutting device for intrusion detection
US5936524	Intrusion detector
WO9940501	Active erasure of electronically stored data upon tamper detection
US5919257	Networked workstation intrusion detection system
WO9931903	Portable detection system with wireless signaling of intrusion condition
EP0919969	Infra red intrusion detection system
EP0917694	Intrusion detection system using quiet signal band detection
US5898374	Sump alarm with radon detection
US5898368	Test indicator control circuit for security alarm device
US5877897	Automatic rearview mirror, vehicle lighting control and vehicle interior
	monitoring system using a photosensor array
EP0898771	An electronic intrusion detection system for monitored environments
US5872560	Intrusion detection security keyboard
JP11023359	Vibration detection system, intrusion detection system and composite
	detection cable
US5870020	Vehicle alarm for providing remote indication of infiltration
US5860674	AOS fan modulation systems
US5856778	Intrusion detecting apparatus for a vehicle
EP0892521	Method and apparatus for long term verification of digital signatures

Patents on Intrusion Detection in 2000:

Número de	Título
publicación	
CA2336775	Method and system for reducing the volume of audit data and
	normalizing the audit data received from heterogeneous sources
RU2159960	Method for video monitoring
RU2150123	Method for detection of intrusion of underwater object into monitored
	region of natural pool
RU2147145	General-purpose control monitoring system
IL128832	Intrusion detection system
IL121285	Intrusion detection systems employing active detectors
AU4797200	Method of communications and communication network intrusion
	protection methods and intrusion attempt detection system
US6166641	Termite sensor and termite intrusion detecting system
US6166627	Mobile detection and alert system
US6166625	Pyroelectric intrusion detection in motor vehicles
AU3737400	Intrusion detection system
FR2795212	Goods/personnel protection surveillance zone alert/alarm having
	presence detector feeding comparators and differentiating detection
	zones wi
WO0074018	Omni-directional security and lighting system
GB2350898	Ultrasonic intrusion detection system
WO0070458	Method of communications and communication network intrusion
	protection methods and intrusion attempt detection system
JP2000268290	Intrusion detection control device in automatic running area
US6137405	Remotely controlled intrusion alarm and detection system
US6134664	Method and system for reducing the volume of audit data and
	normalizing the audit data received from heterogeneous sources
US6127926	Intrusion sensing systems
KR243384	Intrusion detection method and its system system of intentional bad
	users for protecting ca system
EP1039313	Intrusion detection process and device
WO0054458	Intrusion detection system
US6111502	Method and device for keeping watch over premises by having
	differing activation times of sensors
GB2348004	Ultrasonic intrusion detection
AU2046400	Computer network intrusion detection
CN1260661	Monitor for city power invasion of communication cable
US6100803	Infrared illuminative warning detector
GB2347327	Synchronized communication system
US6097429	Site control unit for video security system
WO0034867	A method and apparatus for providing network and computer system
	security

WO0034847	Computer network intrusion detection
WO0021051	Intrusion detection fence with trip wires and common actuator
WO0017021	Alarm and immobiliser with gsm cellular phone
WO0007312	System for intrusion detection and vulnerability analysis in a
	telecommunications signaling network
WO0002115	Method and system for reducing the volume of audit data and
	normalizing the audit data received from heterogeneous sources
US6087938	Outdoor intrusion detector
US6081193	Electronic intrusion detection system for monitored environments
AU6118999	Intrusion detection fence with trip wires and common actuator
US6069655	Advanced video security system
AU5248899	System for intrusion detection and vulnerability analysis in a
	telecommunications signaling network
US6050369	Elevator shaftway intrusion device using optical imaging processing
GB2343750	Intrusion detection system utilising level of received signal and
	Doppler shift signal to identify intrusion
FR2785428	Intruder detection method, involves using car interior pressure
	detector with analysis system for measuring positive and negative
	peak press
EP0994473	Dust-proofing mechanism for a disc cartridge in a disc drive
DE19844458	Theft protection method especially for motor vehicle
JP2000048269	Intrusion position detection device
US6037902	Intrusion detection systems employing active detectors
US6035368	Protection method against eeprom-directed intrusion into a mobile
	communication device that has a processor, and a device having such
	protec
EP0985995	Method and apparatus for intrusion detection in computers and
	computer networks

Patents on Intrusion Detection in 2001:

Número de	Título
publicación	
AU5858100	Intrusion detector with power consumption control and method for intrusion detection
AU5564101	Method and system for intrusion detection in a computer network
US2001056542	Tamper resistant card enclosure with improved intrusion detection circuit
AU4735101	Method and system for dynamic network intrusion monitoring, detection and response
WO0199075	Object proximity/security adaptive event detection
US2001052851	Object proximity/security adaptive event detection
WO0192070	Intrusion detector with power consumption control and method for intrusion detection
US2001047483	Hood intrusion and loss of AC power detection with automatic time stamp
GB2363233	Tamper resistant card enclosure with intrusion detection circuit
EP1160646	Floating intrusion detection platforms
WO0184774	Characterizing network traffic from packet parameters
WO0184285	Method and system for managing computer security information
WO0184270	Method and system for intrusion detection in a computer network
WO0182256	Improved device for making an access secure
US6310555	Water leak detector
US2001035837	System and method for intrusion detection using a time domain radar array
GB2362076	Network intrusion detector which detects pre-attack probes or scans
FR2808363	No English title available.
US2001029791	Steering force detecting magnetostrictive torque sensor
WO0175829	Warning device for protecting a container against intrusion
US6300872	Object proximity/security adaptive event detection
US2001028307	Method and apparatus for electrodynamic intrusion detection
WO0171499	Method and system for dynamic network intrusion monitoring, detection and response
US2001024162	Optical intrusion detection system using mode coupling
EP1137976	Computer network intrusion detection
US6292898	Active erasure of electronically stored data upon tamper detection
EP1136963	Intrusion detection device
AU1728301	Method for automatic intrusion detection and deflection in a network
US6289456	Hood intrusion and loss of AC power detection with automatic time stamp
US6288640	Open transmission line intrusion detection system using frequency spectrum analysis
EP1132879	Optical intrusion detection system using mode coupling
AU3072201	Intrusion detection for object security

AU2903901	Features generation for use in computer network intrusion detection
AU1575401	Method and apparatus for training a neural network model for use in
	computer network intrusion detection
US6282546	System and method for real-time insertion of data into a multi-
	dimensional database for network intrusion detection and
	vulnerability assess
US6281790	Method and apparatus for remotely monitoring a site
US6279113	Dynamic signature inspection-based network intrusion detection
US6278373	Laser intrusion system for detecting motion in a swimming pool
US6275942	System, method and computer program product for automatic
	response to computer system misuse using active response modules
US6271754	Method and system for detecting intrusions into a particular region
GB2359354	Smoke detector and insect screen
EP1125265	Intrusion detection fence with trip wires and common actuator
US2001010492	Intrusion alarm and detection system
US2001008549	Bandpass-limiting device for a receiver
EP1117080	Laser image projection with infrared obstacle detection
US6252507	Intrusion detection system using quiet signal band detection
GB2357868	Method and system for reducing the volume of audit data and
	nomalizing the audit data received from heterogeneous sources
AU7473000	Extensible intrusion detection system
US6243756	Network device with unified management
US6239741	UWB dual tunnel diode detector for object detection, measurement,
	or avoidance
WO0139379	Method for automatic intrusion detection and deflection in a network
WO0135635	Intrusion detection for object security
EP1101304	System for intrusion detection and vulnerability analysis in a
	telecommunications signaling network
AU7981700	System and method for intrusion detection using a time domain radar
	array
WO0131421	Method and apparatus for training a neural network model for use in
	computer network intrusion detection
WO0131420	Features generation for use in computer network intrusion detection
CN1289104	Intelligent imaging invasion-detecting sensor
US6211522	Passive infra-red intrusion sensor
FR2799784	Swimming pool fence intrusion detection system having ground fixed
	posts pad connected and detector detecting fence movement/setting
	off ala
EP1093099	Automatic detection and signalling system of dangerous or
	emergency situations
US6208248	Quick response perimeter intrusion detection sensor
US6198389	Integrated individual sensor control in a security system
US6188318	Dual-technology intrusion detector with pet immunity
US6171025	Method for pipeline leak detection
EP1087259	Solution feeding apparatus and solution feeding method

US6182223	Method and apparatus for preventing unauthorized access to
	computer-stored information
US6179704	Coin dispenser with pilferage detection
WO0117162	Extensible intrusion detection system
WO0117161	System and method for using signatures to detect computer intrusions
WO0116912	Method and apparatus for remotely monitoring a site
WO0116745	System and method for using login correlations to detect intrusions
WO0116709	System and method for using timestamps to detect attacks
WO0116708	System and method for detecting buffer overflow attacks
WO0116675	System and method for analyzing filesystems to detect intrusions

Patents on Intrusion Detection in 2004:

AU2003268074	Wireless local or metropolitan area network with intrusion detection
	features and related methods
AU2003268073	Mobile ad-hoc network with intrusion detection features and related
	methods
AU2003261445	Intrusion detection system and network flow director method
AU2003255263	Mobile ad-hoc network with intrusion detection features and related methods
AU2003255262	Wireless local on metropolitan area network with intrusion detection
	features and related methods
TW594033	An in-car intrusion detection system
TW587036	Multi-function electronic lock device
CA2464784	Multi-layered firewall architecture
US2004263329	Method and apparatus for detecting unauthorized intrusion into a
	container
US2004255163	Preventing attacks in a data processing system
US2004255162	Security gateway system and method for intrusion detection
US2004250134	Data collectors in connection-based intrusion detection
US2004261030	Feedback mechanism to minimize false assertions of a network
00200.201000	intrusion
US2004260945	Integrated intrusion detection system and method
US2004255157	Agent-based intrusion detection system
US2004255153	Application based intrusion detection
US6836213	Method and apparatus for improving the sensitivity of a taut wire
	intrusion detection system
US6833788	Intrusion detection radio appliance
EP1490768	Adaptive behavioral intrusion detection systems and methods
EP1491019	Method and system for reducing the false alarm rate of network
	intrusion detection systems
WO2004102142	Deflection sensing system
US6826697	System and method for detecting buffer overflow attacks
JP2004308364	Drain valve opening and closing device
JP2004305148	Automatic culture apparatus
JP2004312083	Learning data generating apparatus, intrusion detection system, and its
	program
WO2004100095	Fiber optic security system for sensing the intrusion of secured
	locations
WO2004095305	Network security tap for use with intrusion detection system
